Spirulina Powder - Natural

Key Features: A natural blue-green algae

Pack Size: 500g
5kg
25kg

Description

The dried thallus of Athrospira platensis

A natural blue-green algae that has a high nutrition value due to a wide range of essential nutrients, such as vitamins, minerals and proteins.

With a protein content of approximately 65% to 71% (depending on growing conditions) that are biologically complete - which means they provide all eight essential amino acids in the proper ratios. Furthermore, Spirulina provides all the required amino acids in a form that are easily digestible. It is also rich in B group Vitamins including Iron and Manganese.

Physical Properties

Colour: A fine dark green free flowing powder seaweed
Flavour & Odour: A typical fishy smell of seaweed

Please note due to crop fluctuations there could be colour variation between some batches.

Microbiological - Maximum Levels Accepted	
E Coli /g	<100
Salmonella /25g	Negative in 25g

Product Profile	
Particle Size	95% to pass through a 80 mesh sieve
Extraneous Matter %	<2
Foreign Matter %	<1
Moisture %	<7
Total Ash %	<7
Pesticides & Heavy Metals	Meets EU Regulations

Typical Analysis	
Protein %	65 - 71
Carbohydrates %	15 - 25
Fat (Lipids) %	5
Minerals %	7
Moisture %	6

Storage Conditions: Store in cool dry conditions away from direct sunlight
