

BROCACEL® YEAST

Brocel is a highly concentrated, inactivated yeast culture derived from *Saccharomyces cerevisiae*. It is a fine, light brown powder with a characteristic yeasty/malty aroma.

Brocel provides a natural source of protein, B vitamins, nucleotides and beta-glucans. It also contains mannan oligosaccharides (MOS), which can help support beneficial gut microflora and digestive health. The product is widely used within animal feed and pet food formulations and may also help improve palatability and feed acceptance.

Composition

Inactivated yeast culture (*Saccharomyces cerevisiae*)

Typical Analysis

Analysis	Typical Value
Dry Matter	97.0%
Crude Protein	46.5%
Crude Fat	8.2%
Crude Fibre	<0.2%
Starch	8.6%
Carbohydrates	24.6 g/kg
Trehalose	4.4%

Trehalose consists of MOS and β -glucans.

Physical Properties

Appearance: Powder
Colour: Light brown
Odour: Characteristic
Specific Gravity: 600 kg/m³
pH (10% suspension): 5.5
Solubility in water: Practically insoluble

Storage & Shelf Life

Store in a cool, dry place away from humidity, in closed bags or containers. Brocel is hygroscopic and exposure to moisture may adversely affect the product.

Shelf life: 2 years from date of manufacture when stored correctly.

Country of Origin: Hungary
Commodity Code: 2102 20 90 0
