

TARGET

SPIRULINA POWDER

Key Points:

- ✓ A natural blue-green algae.
- ✓ Biologically complete.
- ✓ 65% - 71% protein.

Product Description

The dried thallus of *Athrospira platensis*.

A natural blue-green algae that has a high nutrition value due to a wide range of essential nutrients, such as vitamins, minerals and proteins. With a protein content of approximately 65% to 71% (depending on growing conditions) that are biologically complete - which means they provide all eight essential amino acids in the proper ratios. Furthermore, Spirulina provides all the required amino acids in a form that are easily digestible. It is also rich in B group Vitamins including Iron and Manganese.

Physical Properties

Colour: A fine dark green free flowing powder seaweed

Flavour & Odour: A typical fishy smell of seaweed

Please note due to crop fluctuations there could be colour variation between some batches.

Microbiological - Maximum Levels Accepted

E Coli/g	<100
Salmonella /25g	Negative in 25g

Typical Analysis

Protein	66 - 71 %
Carbohydrate	15 - 25 %
Fat (Lipids)	5 %
Minerals	7 %
Moisture	6 %

Product Profile

Particle Size	95% to pass through a 80 mesh sieve
Extraneous Matter	<2 %
Foreign Matter	<1 %
Moisture	<7 %
Total Ash	<7 %
Pesticides & Heavy Metals	Meets EU Regulations

PACKED IN
