

TARGET

## BETAINE PURE 96% AN

### Key Points:

- ✓ Anhydrous Version

### Product Description

Betaine is a natural product derived from sugar beet. It has long been used in animal feeds and aquaculture diets to help aid digestion and acts as a feeding stimulant. This anhydrous version is more palatable than the hydrochloride type.

### Specification

Betaine anhydrous (HPLC)	min. 96%
Moisture	max. 2% (in original unopened packaging)
Ash (residue on ignition)	max. 1.5%
