

TARGET

MASTER'S MIX

Key Points:

- ✓ 50:50 mix of hardwood and soya hulls

Product Description

Consisting of a 50:50 ratio of Oak Hardwood Pellets and Soya Hull Pellets Target Master's Mix is the perfect substrate for mycological cultivation. Simply hydrate to 60% and sterilise to create a nutritious substrate.

Master's Mix is popular worldwide because of its high yields, being ideal for a wide range of wood loving mushrooms including oyster, lion's mane, chestnut, shimeji and enoki mushrooms.

Target Master's Mix contains:

50% Oak Hardwood Pellets

These Oak Hardwood Pellets have been carefully selected for their superior quality and contain Oak Hardwood Lump, no bark or other woods are used making them ideal to use as a substrate for growing mushrooms.

50% Soya Hull Pellets

These carefully selected Soya Hull Pellets are sieved to help create a superior clean pellet, helping to provide much needed nutrients
