

TARGET

100% OAK PELLETS

Key Points:

- ✓ Premium Hardwood Pellets

Product Description

These 100% Oak Premium Hardwood Pellets have been carefully selected for their superior quality and contain Oak Hardwood Lump, no bark or other woods are used making them ideal to use as a substrate for growing mushrooms.

Sourced from Ecologically & Sustainably Managed Forestry this Oak Pellet is also commonly used as a Heat Source in BBQ or Pizza Cooking and are classed as 'Food Grade'. This indicates & elevates the material quality beyond that used in Boiler Heating Pellets which are a much lower grade, often including bark and rotten wood.

Pellet Manufacturing Process

- Oak Heartwood Lump wood is selected. No Bark or other woods are used.
- The wood is Pulverized. The 'mashed' wood material is Pelleted under great pressure. The material is extruded. This process creates considerable Heat.
- Under Pressure & Heat the wood material exudes Lignin which binds the wood fibers together and gives a slight shine to the Pellet
- The whole process sanitizes the Oak material
- 100% Oak Pellets are produced
